## Specialist Ophthalmologist

We have an exciting opportunity for a board-certified or residency trained specialist ophthalmologist who excels in the management of both routine and more complex ophthalmology cases to join our purpose-built hospital in beautiful Sydney, Australia. The role of specialist ophthalmologist will involve managing cases, collaborating with departments, communicating with clients, providing expert advice to our valued referring vets, managing consultations, delivering the highest quality care, and providing training and mentoring. *An integral part of this role is ensuring each client and referring vet receives personal and attentive care.*

*This would be a new cutting-edge department for the VSOS Advanced Treatment Centre. There are limited numbers of ophthalmologists in Sydney so we anticipate the ophthalmology department will grow rapidly and we plan to recruit additional specialists to share the case load. If you aspire to have your own resident on the service, there is certainly scope to provide for this.*

*You would be the first dedicated leader of this department and the only ophthalmologist in the south of Sydney. We are open to purchasing the new equipment that you will need. This is a great opportunity to build a name for yourself in the profession.*

At Veterinary Specialists of Sydney (VSOS) everything we do is based upon the belief in our team. This belief centres on treating our staff, clients and referring veterinarians as part of our VSOS family. We strive to deliver the best outcomes every single time, with minimal boundaries to our endless enthusiasm. If your wish is to join a family-like culture, then please reach out to us.

### About us:

VSOS is independently owned and operated by a board-certified surgeon (Dr Levien) and board-certified internist (Dr Graham). In 2020, we opened our brand-new world class specialist and 24-hour emergency centre called the Advanced Treatment Centre (ATC) and have grown to over 200 employees. Currently, we have specialists (and Professors!) in internal medicine, surgery, critical care, radiology, dermatology, exotics and anaesthesia and are complemented by residents, specialty interns, rotating interns and nursing staff and more.

We hold ourselves to the highest standards and are very well-equipped, including in-house new 1.5T Siemens Magnetom Semptra (human grade) MRI, a new 64 slice Siemens Somatom Go.Up CT, two digital x-ray systems, an extensive array of endoscopic equipment, and ultrasound including echocardiography. We have three fluoroscopy units, including a brand-new state-of-the-art Philips Zenition c-arm with new flat screen technology for dramatically less radiation exposure and a diode laser for minimally invasive procedures for our dedicated interventional radiology (IR) department. We enjoy a high case load in a great community who entrust us to provide the highest level of care for their pets.

### About you:

The ideal ophthalmologist will be skilled in their specialty, have an open mind, willing to learn and teach, be a team-player and have exceptional communication skills. We love to work as a team and bounce ideas off one-another; sharing of knowledge, technique, and experience with each other is vital. A sense of humour is important, as is the ability to have fun. We are a growing team who are full of enthusiasm, and we would like applicants to share the same values.

What we can offer:

VSOS offers an exceptional culture, with a supportive and positive work environment, driven by compassion and love for patients and their owners. You will receive ongoing education through journal clubs, rounds, on the job training and industry seminars, along with mentorship from multiple specialists with diverse diagnostic and clinical skillsets. Gain experience and develop your skills in ophthalmology; we are always open to trying new techniques. Your career and remuneration opportunities are limitless, apply now!

About Sydney, Australia:

Sydney is a vibrant multi-cultural city with a thriving culture. Whether you are into the arts, dancing, theatre, cinema, hiking, rock-climbing, surfing, sailing, travel or food there is something for everyone! Sydney has a large LGBTIQ+ scene and is a fun place to meet your soulmate. Housing is affordable if you know where to look, and there are no issues with homelessness or crime – it is a very safe place whether daytime or night! Try-it! You won't regret it!
