

## Talent Solutions

### **Hong Kong Veterinary Clinic is hiring a Lead Ophthalmologist**

**AY Talent Solutions** was made to break through the traditional ways of how the recruitment industry offers their service. Where stereotypically search firms work for themselves and not for the clients and candidate's needs.

From a collective experience standpoint as client, candidate, and service provider, we discovered a missing gap to fill.

We seek to align professionals with all the best resources for job seeking and hiring, whether it is candidates who's looking to take the next step in their career or businesses seeking to excel.

#### **Our Client**

Our client is a progressive hospital established in 2018 located in Hong Kong. The facility is over 9,600 square ft., 5 consultation rooms, 2 purpose built surgery suites, wards for dogs, cats and exotic animals, and an independent chemotherapy room. Their doctors and nurses work together as one harmonious team, and everyone is very supportive of each other, and equally welcoming to new team members, as they strive to continuously raise their medical and service standards.

"We believe that pets deserve the same level of healthcare as we expect for ourselves. We are dedicated to deliver the very best of veterinary care and service. We strive to deliver better care to our patients and clients."

We are currently seeking for an experienced and certified Ophthalmologist that can establish a new department, purchasing of equipment, setting up and consultation for patients.

#### **Requirements**

Skills and Experience

1. ECVO or equivalent residency trained.
2. ECVO or equivalent specialist status will be prioritised
3. A full range of surgical intervention capability
